ABOUT SEA4SHORE

SEA4SHORE is an Erasmus+ project developed to support seafarers in identifying realistic and rewarding career opportunities on shore.

The project helps bridge the gap between experience gained at sea and professional pathways on land.

- Strengthened recognition of seafarers' transferable skills
- Improved visibility of shore-based maritime career opportunities
- Supported informed career decisions and transitions
- Promoted innovation, cooperation and long-term employability

PROJECT RESULTS

Through dedicated research, collaboration and testing, SEA4SHORE delivered high-quality, practical outputs to support seafarers' transition to shore-based careers.

- Mapping of shore-based professions**
125 shore-based maritime career profiles identified and described across partner countries, based on labour market needs and industry input.
- Shore Integration Platform**
A multilingual online platform providing awareness, guidance and reliable information for seafarers.
- Case Studies**
61 real-life case studies of successful officer transitions from sea to shore careers.
- Seafarers Shore Integration Tool**
An interactive digital tool helping seafarers assess their transferable skills and explore suitable shore-based career paths.
- Dissemination & Exploitation**
5 national multiplier events and a final international conference engaging over 300 stakeholders across Europe.
